## KONFORT 760 R AND KONFORT 760 R BUS 2 GAS READY FOR SMALL AND LARGE SYSTEMS

This model is equipped with a high visibility colour TFT display with a graphic interface for ease of use. The service management procedure is fully automatic, so there is no requirement for manual taps. The distinctive features compared to the 720R are the hermetically sealed bottle system, automatic service management system, refrigerant measurement and scale locking system. The 760R BUS specifically developed for larger systems. Is equipped with a 30 Kg internal storage tank, a larger 21cc compressor for refrigerant and a 146l/min dual stage vacuum pump, able to generate depression of 0.030 mbar. The 760R BUS can be purchased configured either for the old R134a refrigerant or the new R1234yf refrigerant. A retrofit kit is also available to change refrigerant type.

### MAIN FEATURES

- R134a or R1234yf compatible
- High visibility colour TFT display with interface Graphics
- DATABASE/SERVICE management via SD card
- Rotating gauge display (excluding Germany)
- 20 Kg internal tank for 760R
- 30 Kg internal tank for 760R BUS
- +/- 15 gr load precision
- High efficiency refrigerant recovery (above 95%)
- Dual stage vacuum pump
- Hermetically sealed bottles
- Automatic high precision oil injection
- Automatic oil bottle recognition
- Automatic precise refrigerant measurement check (patented)
- Scale lock system
- Automatic service procedure management
- Functionality:
  - DATABASE
  - PERSONALISED SERVICE
  - MY DATABASE
- Multilingual software coverage
- Service hose length compensation
- Simplified service
- Automatic precise oil measurement check (patented)
- Scale lock system
- Automatic non condensable management

### OPTIONAL

Vehicle flushing kit, VDC kit, Climate efficiency kit, refrigerant identifier, thermal printer, air conditioning system autodiagnosics.
